# I Know a REALTOR®

I know a REALTOR®. In fact, we all do. The best part is, we all know a REALTOR® who is more than their title. The REALTORS® I know do far more than sell houses, farms, and commercial properties. They build homes, communities, and lifestyles. They wake up to the sound of their phone ringing early on a Saturday morning. They miss their kids' baseball practice so they can help someone achieve the home of their dreams. They give up that relaxing evening they planned to show one more home, write one more contact, negotiate one more offer, and so much more. The REALTORS® I know are so integral to their communities because they would do anything to make it just a little bit better. There's a reason why REALTORS® volunteer more than any other profession out there. REALTORS® are bound by the Code of Ethics and are committed to fair housing.

**Barb Curtis**

*2025 President, Kentucky REALTORS®*

We all know a REALTOR®. I'd be willing to bet most of the time we ARE that REALTOR®. We just do a subpar job of telling everyone else. In 2025, I want you to tell your story. Whether you are that REALTOR®, or you know one, share that experience. Share the time you saved a deal from falling apart and helped someone move into the home of their dreams. Tell the story of how you had to speed-clean your latest listing before the photographer arrived on site because the homeowner forgot before they left town. Share the lengths you go to in order to help our consumers every day. We all know what we do, but no one else does. We need to tell our story.

In 2025, Kentucky REALTORS® will tell your story. We fight every day to protect private property rights for all. We advocate to protect consumers and ensure REALTORS® are able to practice business efficiently and effectively. We're on the frontlines rebuilding our communities after devastating natural disasters. We invest time in educating ourselves so we can better serve our clients. We give back to the communities we serve, because that's who we are. It's been a challenging past few years for the industry, but there's only one way forward. We don't get a choice in what life hands us, but we always have a choice in how we handle it.
